CAREER OBJECTIVE

MCA student specializing in **Cloud Computing** seeking a Cloud/AWS/DevOps Internship to apply knowledge in cloud deployment, containerization, and infrastructure management while gaining practical industry experience.

EDUCATION

Master of Computer Applications (Cloud Computing)
Surana College (Autonomous), PG Department, Bangalore — *2024–2026*

Bachelor of Science (B.Sc.)
Vivekananda Degree College, Bangalore City University

TECHNICAL SKILLS

- **Cloud:** AWS (EC2, S3, IAM – Basics)
- **DevOps:** Docker, Git, GitHub
- **Programming:** Python
- **Web:** HTML, CSS, Flask
- **Database:** MySQL (Basics)
- **Operating Systems:** Linux (Commands & Server Setup)
- **Concepts:** Cloud Computing, Virtualization, Containerization, CI/CD Basics

PROJECTS

AWS Cloud Web Application Deployment

- Hosted web application on AWS EC2 instance
- Configured Linux server and deployment environment
- Implemented cloud-based hosting and access setup

Dockerized Cloud Application

- Built Flask web application and containerized using Docker

- Created Dockerfile and managed container lifecycle
- Pushed Docker image to Docker Hub and deployed on AWS EC2

CERTIFICATIONS & LEARNING

- AWS Cloud Fundamentals(Learning)
- Docker & DevOps Basics (Self-Learning)
- Cloud Computing Specialization – MCA Curriculum

SOFT SKILLS

Problem Solving • Team Collaboration • Adaptability • Quick Learner • Analytical Thinking
